

Good reasons for the 8

Document Exchange for...

Next Generation Document Exchange

- » End-to-end transmission
- » Qualified transmission report
- » Worldwide ITU standard and backward compatible
- » Colored, high-resolution, cross-industry
- » PDF/A and e-invoices (ZUGFeRD 2.1)

Direct SIP Connection

- » Directly on the SIP trunk or the IP telephone system
- » Various templates for easy setup
- » Load distribution and reliability
- » Flexible phone number corrections
- » NGDX, FastFax, Fax, Voicemail and SMS

Move to the Next Level
ALL-IP "Movement" gives us since 2018 the chance to make the fax better.

Next steps with full backward compatibility

- more reliable
- faster
- more colourful & more like a document than before („DocumentTiger“)?

The slide features a background image of a computer monitor displaying a document and a telephone handset. The Ferrari logo is at the bottom left.

Safety and Security

- » Encryption of documents for secure transmission
- » Server based certificate verification, securing identities
- » Hash value check, manipulation security
- » Encrypted and authenticated access to the system
- » DSGVO compliant

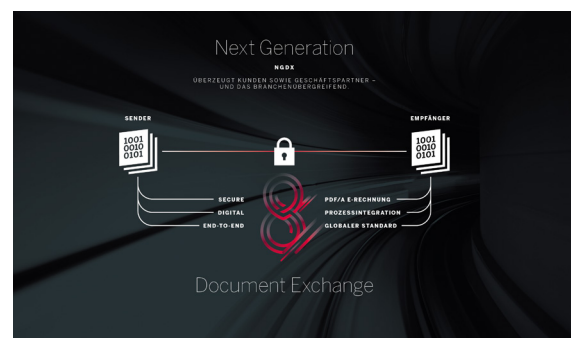

NGDX is more than Fax!

- This is an NGDX transmission.
- The document transmission was encrypted.
- During document transmission, the certificate of the remote peer was classified as trustworthy.

The Ferrari logo is at the bottom left.

Always one step ahead in the future

- » Built in OCR turns faxes into documents
- » Integration in Microsoft Dynamics 365
- » Transmit directly digital e-invoices (to federal authorities) or sent ZUGFeRD 2.1 documents
- » Send letter mailings without printing, enveloping and taking to the post office with the „ePostbrief“ connector
- » Innovative document exchange via cloud relay introduces 2FA (two-factor authentication) for sending documents

...the digital Company!

Good reasons for the 8

With the **OfficeMaster Suite 8** Ferrari electronic launches a groundbreaking product for the all-IP market. Which is highly focused on the challenges of the digital workplace.-
